#### **INDEPENDENT AUDITORS' REPORT**

To the Board of Directors Wellington Securities Inc. San Francisco, California

We have audited the accompanying statements of financial condition of Wellington Securities, Inc. as of December 31, 2005 and 2004 and the related statements of operations, changes in stockholder's equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Wellington Securities, Inc. as of December 31, 2005 and 2004, and the results of its operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The 2005 information contained in Schedule I is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### WELLINGTON SECURITIES, INC. Notes to Financial Statements December 31, 2005 and 2004

#### 1. General Information and Significant Accounting Policies

Wellington Securities, Inc. (the "Company") was incorporated June 25, 1985 and began business in September 1985. The Company is registered as a broker and dealer in securities with the Securities and Exchange Commission ("SEC") and the National Association of Security Dealers ("NASD"). It transacts trades in equity securities through other brokers on a "fully-disclosed" basis and receives commissions therefrom. In addition, commissions are earned on sales of limited partnership interests, mutual funds and other interests. The Company is a wholly owned subsidiary of San Francisco Rail, Inc.

#### Basis of accounting

The financial statements are prepared on the accrual basis of accounting wherein income is recognized as earned and expenses are recognized when incurred.

#### Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Cash and cash equivalents

The Company considers all highly liquid financial instruments purchased with an original maturity of three months or less to be cash equivalents.

The Company maintains cash balances at two separate banks each with FDIC insurance of up to \$100,000. At December 31, 2005 and 2004 cash balances did not exceed the FDIC limit. An additional deposit was maintained with a clearing broker, which is insured by SIPC.

#### **Investments**

In 2000, the Company purchased an investment in an equity security. This security is considered available for sale and is recorded at its estimated fair value, which was \$3,600 less than cost at December 31, 2004 and \$33,870 greater than cost (of \$18,900) at December 31, 2005.

#### Income taxes

The Company files consolidated income tax returns with its parent. Deferred income tax assets and liabilities are provided for differences between the tax basis of an asset or liability and its reported amount in the financial statements. Deferred tax balances are determined by using the tax rate expected to be in effect when the taxes will actually be paid or refunds received.

#### WELLINGTON SECURITIES, INC. Notes to Financial Statements December 31, 2005 and 2004

#### 2. Net Capital Requirement

As a registered broker and dealer in Securities, the Company is subject to the Securities Exchange Commission Uniform Net Capital Rule (Rule 15c3-1).

The Company's ratio of aggregate indebtedness to net capital as defined in the Uniform Net Capital Rule was approximately 0.76 to 1 and 0.35 to 1 at December 31, 2005 and 2004, respectively. Aggregate indebtedness and net capital change from day to day. The Company is required to maintain a ratio of less than 15 to 1.

At December 31, 2005 and 2004, the Company had net capital as defined of \$80,055 and \$83,921 respectively, which exceeded the minimum requirement of \$5,000 at December 31, 2005. However, it should be noted that in order to diminish the clerical effort of interim reporting, the Company must maintain a minimum net capital of 120% of the minimum required capital.

#### 3. Exemption From Rule 15c3-3

The Company is exempt from certain provisions of Rule 15c3-3 since it places stock and bond transactions on a "fully-disclosed" basis with clearing broker-dealers, since it carries no margin accounts, except through the clearing brokers, and since it promptly transmits all customer funds, delivers all customer securities and does not otherwise hold funds or securities of customers.

#### 4. Liabilities Subordinated to Claims of General Creditors

Borrowing under an agreement approved by the National Association of Securities Dealers, Inc. (NASD) as subordinated to claims of general creditors and allowable capital for "net capital" purposes under the Securities and Exchange Commission's uniform net capital rule was \$10,000 as of December 31, 2004. In December 2005, with the approval of the NASD, the company paid the note.

#### 5. Income Taxes

The Company files consolidated income tax returns with its parent. Income tax expenses are recognized on a separate company basis and remitted to the parent company. The following is the computation of income tax expense. The deferred tax benefit recognized is due to timing differences in the deduction of California Franchise tax:

## INDEPENDENT AUDITORS' REPORT PURSUANT TO RULE 17a-5 OF THE SECURITIES EXCHANGE ACT OF 1934

To the Board of Directors Wellington Securities, Inc. San Francisco, California

In planning and performing our audits of the financial statements of Wellington Securities, Inc. (the "Company"), for the year ended December 31, 2005 and the supplemental schedule as of December 31, 2005, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission ("SEC"), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verifications, and comparisons.
- 2. Recordation of differences required by rule 17a-13.
- 3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2005 to meet the SEC's objectives. However, it was noted that pursuant to a review conducted by the National Association of Securities Dealers, Inc. the procedures for "overseeing" the trades placed with its clearing broker with regard to "late trades" indicated that the company needed to improve its overnight responsibilities of the clearing broker to ascertain the trades are processed in a manner to preclude late trades. The Company had extended it's procedures to oversee the trades placed through the clearing broker to conform to the recommendations.

This report is intended solely for the use of the Board of Directors, management, the SEC, the National Association of Securities Dealers and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
